introducing 4a.cool.

For over 20 years, 4 Aces has set the standard in food and beverage packaging, earning trust through quality, innovation and a commitment to serving the ever-changing needs of the industry.

Meet 4a.cool — a versatile range for cold beverages. From iced coffees, refreshing smoothies and fizzy soft drinks, to chilled beer and water, this dedicated line of cold cups promises to be a dependable and functional packaging solution for every occasion.

Refreshingly reliable. Perfectly cold.

Aqua Swirl Paper Water Cup

Our Aqua Swirl Paper Water Cups provide a sustainable alternative to traditional plastic water cups. Designed to be used with water towers and coolers, they are a great option for office spaces with shared hydration stations and other communal settings.

Key features:

- ✓ **Leak-proof:** PE-lined to prevent leakages and spills.
- ✓ **Recyclable:** Suitable for recycling through a **Cup After Life scheme** contributing to a circular economy.
- ✓ **Unique design:** Features an eye-catching design for added appeal.
- ✓ **Quick dispense:** Easily accessible with **compatible dispensers** for hassle-free use.

Name	Wall Type	Material	SKU	Case Size	Pallet qty
7oz Swirl SW	Single	PE Lined Paper	HVSWPA07A	20x100	33

CUPkind Paper Water Cup

Our CUPkind Paper Water Cups are perfect for businesses that value sustainability and performance. Crafted for use with water towers and coolers, they are ideal for spaces with shared water coolers.

Key features:

- ✓ **Aqueous coating:** Innovative water-based barrier that guarantees a leak-proof experience.
- ✓ **PE/PLA liner-free:** A sustainable alternative to traditional single-use plastic-lined products.
- ✓ **Planet-friendly disposal:** Suitable for both recycling and industrial composting.
- ✓ **Premium materials:** Made from FSC®-certified virgin paperboard.
- ✓ **Customisable:** Easily customisable with logos or branding to enhance brand visibility.

White Paper Straw	9mm	Paper	PSUW9	20x200	15

closing the loop.

for events and catering services.

Over 90% of today's single-use cups are not recycled properly. That's why 4 Aces goes beyond food service packaging by committing to making a positive impact on the environment.

Our "Closing the Loop" initiative focuses on educating customers on how to improve their recycling practices by connecting them with our collaborators to find the right Cup After Life schemes.

Together, we can close the loop and create a lasting change.

co-cre8

Paper cup recycling scheme.

co-cre8 encourages businesses to recycle the equivalent weight of all types of paper cups that scheme members place on the market.

- ✓ UK wide collection coverage
- ✓ Solution for all types of paper cups
- ✓ Effective & customisable cup collection units
- ✓ Tracking system provides exact weight of cups collected
- ✓ Online member portal and data

How co-cre8 works:

Sign up
Get access to a nationwide collection service and expert guidance.

Set up collection
Install customisable bins with tracked system collection units for accurate cup collection data.

Recycle and report
Use the co-cre8 online portal for data management and fulfil recycling reporting requirements.

VEOLIA

Stack it, Pack it, Post it cup scheme.

Veolia supplies businesses with special internal bins for the disposal of cups, lids, and stirrers.

- ✓ UK wide collection coverage
- ✓ Improve carbon footprint
- ✓ Reduce landfill tax
- ✓ Boost recycling performance
- ✓ Meet corporate responsibility targets

How Veolia works:

Stack
Gather used coffee cups. No need to separate lids or sleeves from cups as Veolia has a process to ensure any remaining liquid is drained.

Pack
Reuse any cardboard box to pack the collected cups securely using a clear plastic liner inside for collection.

Post
A dedicated courier will promptly collect and deliver it to their nearest recovery facility. Any materials that cannot be recycled will be used to generate green energy.

first mile

Waste management services.

First Mile helps businesses recycle compostable products by reducing waste and carbon impact while converting non-recyclable waste into energy for homes.

- ✓ UK wide collection coverage
- ✓ Waste converted into fertiliser
- ✓ B Corp Certified
- ✓ Low-cost recycling boxes
- ✓ Easy to return difficult to recycle items

How First Mile works:

Use smart bins
Set up the four prepaid return boxes that turn into smart recycling bins for compostable products.

Prepare and schedule collection
When full, scan the QR code to schedule collection, and First Mile will pick up the waste.

Return the recycling
The materials will be sorted at the First Mile centre, compostables will be processed into biogas and fertiliser.
